## SHIPS ALL DAMAGED

ADMIRAL TOGO'S FLEET FILLED  
RUSSIAN WARSHIPS FULL  
OF SHOT HOLES.

### NO JAP WARSHIPS DAMAGED

CASUALTIES ON THE MIKADO'S  
VESSELS LESS THAN TWO  
HUNDRED MEN.

Tokio, Aug. 13.—Admiral Togo has been heard from in two long bulletins bringing news of success in the battle off Port Arthur. He has divided the Russian fleet and damaged every fighting vessel that carried the czar's flag. The Port Arthur squadron will no longer be a menace to the navigation of Japan, and it is doubtful if there is a seaworthy ship in the czar's fleet.

Admiral Togo fought to cripple the enemy's squadron and keep it in Port Arthur waters, but at no time risked losing his battleships and first-class cruisers by a close fight with the Russian ships. That he could have destroyed them there is no doubt here, but it would have been with the chance of losing or disabling several of his own heaviest fighting machinery.

Admiral Togo reports as follows: "On Aug. 10 our combined fleet attacked the enemy's fleet near Gagan Rock. The Russian vessels were emerging from Port Arthur, trying to go south. We pursued the enemy to the eastward. Severe fighting lasted from 1 o'clock Wednesday afternoon until sundown. Toward the close the enemy's fire weakened remarkably. His formation became confused and then his ships scattered. The Russian cruisers Askold and Novik and several torpedo boat destroyers fled to the southward. Other of the enemy's ships retreated separately toward Port Arthur. We pursued them and it appears that we inflicted considerable damage. We found life buoys and other articles belonging to the Russian battleship Czarevitch floating at sea. The Czarevitch probably was sunk. We have received no reports from the torpedo boats and the torpedo boat destroyers which were engaged in the attack on the ships of the enemy. The Russian vessels, with the exception of the Askold, the Novik, the Czarevitch and the cruiser Pallada, appear to have returned to Port Arthur. Our damage was slight. Our fighting power has not been impaired. "The casualties in the Japanese navy on Wednesday, Aug. 10, numbered about 170.

### THE NOVIK ESCAPES

RUSSIAN CRUISER LEAVES GERMAN PORT AND ELUDES THE JAP WARSHIPS.

Chefoo, Aug. 13.—A message has just been received here saying that the Russian cruiser Novik escaped from Tsingchow at the expiration of the time limit of twenty-four hours set upon her remaining there. No fighting at sea has yet been reported.

### RETURNED TO PORT ARTHUR.

Three Russian Battleships and a Cruiser Got Back to Harbor.

Tokio, Aug. 13.—The navy department Friday night issued a brief statement of the engagement with the Russian Port Arthur squadron on Aug. 10. The statement follows: "According to reports received to date, the enemy's fleet, which emerged from Port Arthur, was attacked by our fleet south of Yentao Island. The Russian fleet fled during the night. The cruisers Askold, Novik and another cruiser with one torpedo boat destroyer ran into Kiaochow bay on the evening of Aug. 11. One torpedo boat destroyer went to Chefoo and three of the enemy's battleships, one cruiser, probably the Diana, one hospital ship, two gunboats and several torpedo boat destroyers seem to have separately returned to Port Arthur between dawn and noon, Aug. 11. Our fleet appears to have sustained no damage."

### ADMIRAL WITHOFT KILLED.

Russian Commander Said to Have Fallen in Battle.

Chefoo, Aug. 13.—A late report from Tsingchow says that the Russian warships still there are the battleship Czarevitch, the protected cruisers Pallada and Novik, and three torpedo boat destroyers. The Czarevitch, which is badly damaged, is being repaired with German assistance, it is alleged. A report has also been received here to the effect that Admiral Withoft was killed in the naval battle off Round Island last Wednesday.

A strong detachment of Japanese warships is reported to have sailed south for the purpose of intercepting the Vladivostok fleet, which it is believed has not yet effected a junction with the vessels reported to have been purchased by Russia from the Argentine government.

### REJOICING AND ANXIOUS.

Events Sway Russians With Varying Emotions.

St. Petersburg, Aug. 13.—St. Petersburg is divided between rejoicing over the birth of an heir to the throne and anxiety as to the fate of the Port Arthur squadron. As has happened on several occasions since the war began, a fete day at the capital coincides with an important development at the front and national thanksgiving is tempered with solemnity.

A day marked by the display of flags, the firing of salutes, the holding of religious services, and the extending of official congratulations was followed by a night of brilliant illumination. In chapels and cathedrals everywhere there were solemn choruses of thanksgiving, from the imperial chapel of the Peterhof palace to the humble lamp-lit shrines of the streets. The street crowds were, however, much quieter than usual on a holiday for the popular rejoicing over the event at the Alexander villa could not dispel the anxiety which prevailed regarding the fate of the squadron on which so much depends.

At the admiralty, where the officers were on duty late at night, every report was eagerly scanned, but the fragmentary news from foreign and Japanese sources left much doubt as to the result of the fight between the Port Arthur squadron and the Japanese fleet and as to the whereabouts of the Russian ships. All that seems to be established is that there was a day's running fight and a night torpedo attack in which some of the ships became parted from the squadron, but the last dispatches from Shanghai seem to indicate that the Japanese were beaten off though with what damage is not clear.

Though at least four Russian battleships appear to have reached the open sea, the cruisers Pallada, Askold and Diana and one battleship remain unaccounted for. The injuries sustained by the battleship Czarevitch give her sanctuary in the harbor of Tsingchow, but the Novik is under notice served by the German authorities to leave. As she is very fast, being capable of making twenty-three knots an hour, there are strong hopes that she will escape unless there are Japanese cruisers awaiting her on the outside.

### RUSSIAN ARMY WAITS

SPECULATING UPON WHEN AND HOW THE JAP ATTACK WILL BE MADE.

Anshanshan, Aug. 13.—A Russian correspondent of the Associated Press says: "We are awaiting developments here and speculating as to what will be the next move, how many men and guns the Japanese will be able to muster against us, and where the expected big battle will occur. It is impossible at present to say whether a stand will be made at Liaoyang, which is excellently fortified, at Mukden, or, as some say, at Harbin. The indications, however, point to Liaoyang."

"There is a general feeling that our cavalry and infantry in open country will be at a greater advantage than they would be in the hill fighting further south. "It is estimated that the Japanese force consists of from 240,000 to 260,000 men, with 600 guns. It is expected that they will detach a portion of their troops near Port Arthur also before pushing home the great attack. "They are expected to bring up siege guns, but we are well equipped with field siege tanks."

"It is also no secret here that the Japanese are trying to flank us and to cut off our reinforcements from the north, but there is considerable question as to their ability to do so, as such a move would necessitate from 350,000 to 400,000 troops, which it is not believed the Japanese have at their disposal."

### WILL ATONE FOR ACTION.

Japan Will Probably Return the Ryeshitnei to China.

London, Aug. 13.—The general opinion of the London morning newspapers is that Japan will make atonement for the Ryeshitnei affair by restoring the ship to the Chinese authorities, but at the same time it is admitted that international obligations have been so frequently trampled during the course of the war that Japan may possibly feel entitled to make a law unto herself. "The greatest interest is evinced in the outcome of the naval battle, throwing light on which no further news has reached London."

### CRUISER KASUGA SUNK.

Jap Warship Said to Have Gone Down With All on Board.

London, Aug. 13.—A dispatch to Reuter's Telegraph company from St. Petersburg says that the Japanese armored cruiser Kasuga (formerly the Argentine warship Rivadavia) was sunk with all on board during the engagement off Port Arthur on Wednesday last.

### SUPPORT RUSSIAN PROTEST.

France and Germany Back Up the Czar's Government.

St. Petersburg, Aug. 13.—It is stated here that both France and Germany are supporting at Peking the protest of the Russian government against the action of the Japanese torpedo boat destroyer in attacking the Russian torpedo boat destroyer Ryeshitnei in the harbor of Chefoo.

## BRYAN LOSES HIS SUIT

BENNETT WILL CASE DECIDED AGAINST THE NOTED NEBRASKA MAN.

### WILL NOT GET THE BEQUEST

SUM OF FIFTY THOUSAND DOLLARS LOST TO THE FAMILY OF MR. BRYAN.

New Haven, Conn., Aug. 13.—A decision adverse to William J. Bryan in his contest over the will of the late Philo S. Bennett of New York and this city was handed down Friday by the supreme court of errors after an all day session. The decision virtually denies that Mr. Bennett is entitled to the \$50,000 mentioned in the sealed letter written by Mr. Bennett and addressed to his widow to be read by her after his death. By this letter the widow was asked to give \$50,000 to Mr. Bryan and his family.

The decision sustains the opinion given by the superior court in the case last spring, and also the decision of the probate court before which the matter was first brought up. No opinion was filed with the decision, although the memorandum given out by the court reporter was as follows: "William J. Bryan, et al, appeal from probate, no error, opinion by Chief Justice Torrance."

Justices Hall, Hammersley, Baldwin and Prentice concurred in the decision.

### COUCHED IN MILDEST TERMS.

Germany's Declaration to Support Appeal of Steamer Thea Case.

Berlin, Aug. 13.—The owners of the German steamer Thea deny that the vessel was chartered by a Japanese firm.

The official announcement of the intention of the government to support the appeal of the owners against the decision of the prize court is couched in the mildest terms. It says: "If an appeal is lodged it will be supported through diplomatic channels from Berlin as far as can be done in accordance with documentary evidence in the case."

### ROOSEVELT WILL NOT SPEAK

The President Will Deliver No Political Addresses This Year.

New York, Aug. 13.—Chairman Cortelyou said Friday that President Roosevelt would not make any political speeches this year, setting at rest many rumors to that effect that have been in circulation. Beyond the speech to the notification committee and the letter of acceptance, which is yet to be published, the president will not take any public part in the campaign. This is in line with the course pursued by President McKinley in 1900.

President Roosevelt has placed the political campaign in the hands of Mr. Cortelyou and while there may be consultations between them, it is well understood that the national chairman is in absolute control and that in all political matters he takes the full responsibility.

## DECISION IN AN IMPORTANT CASE

Judge McClenahan Renders Decision in Case of Stitt & Howe vs the Rat Portage Co.

THE SUIT INVOLVES \$200,000

Case Was Consumed Many Years Ago and Has Consumed Much Time.

Judge McClenahan announced today that findings have been made in the case of Stitt & Howe vs the Rat Portage Logging company, one of the biggest cases ever tried in this district and involving, including an accounting, about \$200,000. The findings are for the plaintiffs, Stitt & Howe.

This action was brought in 1901 and, taking the accounts and the credits of both sides, the amount of the verdict will in all probability reach \$50,000.

The case primarily grew out of an agreement made in 1899 between Stitt & Howe, this firm being composed of R. N. Stitt and Miss Nellie Howe, and the Rat Portage Logging company, involving the purchase of several large tracts of land and the logging operations thereon in the Rainy lake country on the Bear and Deer rivers.

These streams are in Canada and the defendant company operated large mills at Rat Portage and other points.

Stitt & Howe bought a large tract of this timber land, the aggregate cost of which was about \$100,000. The money to pay for this land was advanced by the Rat Portage Logging company under a contract, the exact terms of which the parties do not agree upon.

The plaintiffs contend that the money advanced was in the nature of a loan, and while the land was taken in the name of the Rat Portage Logging company it was really their land.

On the other hand the Rat Portage Logging company take the position that it was their property and all the equity that Stitt & Howe had in it was to log it and receive payment for the logs delivered.

In addition to the understanding whereby the company was to advance the money for the land the contract also provided that the Rat Portage Logging company was to advance sufficient money to Stitt & Howe to carry on the logging operations, which operations extended over a number of years, the amount to be logged each year by the firm of Stitt & Howe being about 10,000,000 feet.

The contention of Stitt & Howe in this regard was that the Rat Portage Logging company advanced the money as a mere loan as in the case of purchasing the timber land.

This view is taken in the decision made by Judge McClenahan.

In addition to this decision on the law point, there is also involved a long counting, growing out of the advance on the one side of about \$200,000 and the deliver of the logs on the other side, for which Stitt & Howe claim a credit.

The general result of Judge McClenahan's decision is that the plaintiffs are entitled to the property upon the payment by them to the Rat Portage Logging company of the balance to be due which is about \$50,000 or \$60,000.

The lands include large tracts in some of the best territory of the Rainy Lake country and is very valuable, much of the timber on the land at present being very valuable.

This is the second trial of this case, both of which have been tried before Judge McClenahan. In the other case a decision was rendered in favor of the defendant company, but a motion for a new trial was made and was granted.

The attorneys in this case were H. B. Fryberger, of Duluth, for the plaintiffs, R. R. Riggs, Duluth, Senator C. C. McCarthy, Grand Rapids and Victor Welch, of Minneapolis, for the defendants.

The case consumed weeks and months of time and the testimony taken would fill several large volumes.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or dependency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. ## RAILROAD GOSSIP

The Northern Pacific has built a fence around the vacant lot east of the freight house and it is understood that they will plant grass there and make a beautiful lawn.

Sunday excursions on the Northern Pacific have been done away with. The management of the base ball team tried to make one for Sunday but failed.

Engineer Gage, of the St. Paul & Duluth line of the N. P., has taken the run on 5 and 6, succeeding Engineer Ferrell, who has gone over on the main line.

President Howard Elliott, of the Northern Pacific, and his official party, will reach St. Paul Sunday on a special train from the west, after completing a general inspection tour of the entire system, which has occupied more than a month. The journey has included trips over all the branch lines and an extended personal inspection by Mr. Elliott of facilities and the local situation at each of the important cities on the St. Paul-Portland route. Mr. Elliott spent considerable time on the Pacific coast, and is carefully investigating conditions in North Dakota on his way back to St. Paul.

## MRS. J. E. McMANNIS HAS A CLOSE CALL

Stray Bullet Hit Her in Shoulder Last Night on the West Side of River

## BOYS SHOOTING FOR FUN

And the Accident Might Have Resulted Seriously for them—Two are Arrested

Chief of Police Sargent has from time to time had considerable trouble with young boys who go down on the east side of the river bank south of the bridge and with small twenty-two rifles shoot at objects in the water.

Complaint has been made on various occasions that there is great danger from this source to those who live on the opposite side of the river. Chief Sargent has, therefore been very diligent in trying to catch some of these youngsters but they always manage to get away.

Last night some boys were shooting from the same point again and this morning they realize that the result of their little recreation might have been a very serious matter with them, for Mrs. J. E. McMannis, who was on the west side of the river was hit in the shoulder by a stray bullet. The bullet glanced off and did not injure the lady very much, although she was badly frightened and at first it was thought that she had been killed. She fainted away and it was some time before she was brought to.

This morning the boys, who desire their names withheld, were taken in tow by Chief Sargent and had a hearing in the municipal court charged with shooting off firearms within the city limits.

Both young men are well known in the city and it is not thought that they intentionally did anything wrong, but they did not realize the danger. They were fined \$10 apiece.

Chief Sargent states that he has determined to stop this indiscriminate shooting and anyone caught in the act on the river bank, no matter who it is, will be arrested and dealt with according to law. There is a city ordinance which regulates these matters and every effort will be made to see to it that it is enforced.

### Wheat Shortage.

The Edwards-Wood Co. have issued a large crop circular in which they predict a shortage in the wheat crop most unusual. The circular first gives a series of bulletins from all over the country which tells a story of crop deterioration which is unequalled and then a bulletin is given showing the actual yield in European countries last year and the estimated crop for this year.

The estimated yield for this year, according to this bulletin, is 413 millions of bushels less than last year, a most phenomenal shortage in Europe. This great shortage in Europe, with a yield in the United States of less than enough to supply the home demand for consumption and seed, the Edwards-Wood Co. predicts, will produce a great rise in prices during the coming year.

This scenic production "Sweet Clover" is one of the most elaborate ever taken on tour and requires a specially constructed car for its transportation. ## DECISION IN AN IMPORTANT CASE

Judge McClenahan Renders Decision in Case of Stitt & Howe vs the Rat Portage Co.

### THE SUIT INVOLVES \$200,000

Case Was Commenced Many Years Ago and Has Consumed Much Time.

Judge McClenahan announced today that findings have been made in the case of Stitt & Howe vs the Rat Portage Logging company, one of the biggest cases ever tried in this district and involving, including an accounting, about \$200,000. The findings are for the plaintiffs, Stitt & Howe.

This action was brought in 1901 and, taking the accounts and the credits of both sides, the amount of the verdict will in all probability reach \$50,000.

The case primarily grew out of an agreement made in 1899 between Stitt & Howe, this firm being composed of R. N. Stitt and Miss Nellie Howe, and the Rat Portage Logging company, involving the purchase of several large tracts of land and the logging operations thereon in the Rainy lake country on the Bear and Deer rivers.

These streams are in Canada and the defendant company operated large mills at Rat Portage and other points.

Stitt & Howe bought a large tract of this timber land, the aggregate cost of which was about \$100,000. The money to pay for this land was advanced by the Rat Portage Logging company under a contract, the exact terms of which the parties do not agree upon.

The plaintiffs contend that the money advanced was in the nature of a loan, and while the land was taken in the name of the Rat Portage Logging company it was really their land.

On the other hand the Rat Portage Logging company take the position that it was their property and all the equity that Stitt & Howe had in it was to log it and receive payment for the logs delivered.

In addition to the understanding whereby the company was to advance the money for the land the contract also provided that the Rat Portage Logging company was to advance sufficient money to Stitt & Howe to carry on the logging operations, which operations extended over a number of years, the amount to be logged each year by the firm of Stitt & Howe being about 10,000,000 feet.

The contention of Stitt & Howe in this regard was that the Rat Portage Logging company advanced the money as a mere loan as in the case of purchasing the timber land.

This view is taken in the decision made by Judge McClenahan.

In addition to this decision on the law point, there is also involved a long counting, growing out of the advance on the one side of about \$200,000 and the deliver of the logs on the other side, for which Stitt & Howe claim a credit.

The general result of Judge McClenahan's decision is that the plaintiffs are entitled to the property upon the payment by them to the Rat Portage Logging company of the balance to be due which is about \$50,000 or \$60,000.

The lands include large tracts in some of the best territory of the Rainy Lake country and is very valuable, much of the timber on the land at present being very valuable.

This is the second trial of this case, both of which have been tried before Judge McClenahan. In the other case a decision was rendered in favor of the defendant company, but a motion for a new trial was made and was granted.

The attorneys in this case were H. B. Fryberger, of Duluth, for the plaintiffs, R. R. Riggs, Duluth, Senator C. C. McCarthy, Grand Rapids and Victor Welch, of Minneapolis, for the defendants.

The case consumed weeks and months of time and the testimony taken would fill several large volumes.

President Howard Elliott, of the Northern Pacific, and his official party, will reach St. Paul Sunday on a special train from the west, after completing a general inspection tour of the entire system, which has occupied more than a month. The journey has included trips over all the branch lines and an extended personal inspection by Mr. Elliott of facilities and the local situation at each of the important cities on the St. Paul-Portland route. Mr. Elliott spent considerable time on the Pacific coast, and is carefully investigating conditions in North Dakota on his way back to St. Paul.

## VIOLENCE IN CHICAGO

### SEVERAL MEN INJURED IN THE RIOTS ATTENDING STOCK-YARDS STRIKE

### CALL ON MAYOR HARRISON

#### WILL ASK HIM TO TRY TO SETTLE TROUBLE.

Chicago, Aug. 13.—A riot in crowded Fifth avenue within a square of the city hall and recalling the teamsters' strike two years ago, when missiles were hurled from the windows of office buildings, capped the climax of disorder in the stockyards' strike Friday. During the day half a dozen men were hurt in various encounters and shots were fired during an attack on a train-load of "strike-breakers." All told, Friday's violence was more widespread than in any previous twelve hours of the strike, although no mob of great size took part in any of the assaults.

Even President Golden of the teamsters' union was attacked while trying to rescue Max Falk, a union teamster, who was driving a wagon loaded with meat. Four hundred persons had pursued Falk, not knowing he was a unionist, and were attacking him when President Golden appeared. When Falk produced a union button Golden mounted the wagon, took the reins and urged back the mob. Stones and sticks were showered at Golden and Falk before Golden, who suffered many injuries, was recognized.

Mayor Carter H. Harrison will today be asked to do what he can toward settling the stockyards strike. With all prospects of peace, or even peace conferences gone, the retail meat dealers and grocers last night decided to ask Mayor Harrison to take position in the present conflict similar to the position taken by him in the street car strike last fall. The street railway strike was settled through his efforts. Representatives of the strikers expressed themselves as being satisfied with the plan to ask Mayor Harrison's assistance in the controversy.

Previous to the decision to request Mayor Harrison to intercede for peace, Cornelius Shea, president of the International Brotherhood of Teamsters, declared that there would be no more sympathetic strikes of the members of his union. He declared that all the packinghouse teamsters now on strike would stand pat.

### MRS. MAYBRICK TALKS.

Grateful to Those Who Worked for Her Release.

London, Aug. 13.—The Daily Chronicle publishes a three column interview with Mrs. Florence Maybrick, mostly concerned with her experiences during her life in prisons. The interview describes Mrs. Maybrick as clear-witted, outspoken, mildly robust and in no way shattered, either physically or mentally, though her face is drawn as with grief and suffering, and says that she answered the questions put to her frankly and without embarrassment or nervousness.

Describing the arrangements for her release, Mr. Maybrick said she could never hope to repay the debt of gratitude she owed Ambassador Choate, Henry White, secretary of the American embassy, and other kind friends, and she wished it known how good the officials of the American embassy had been to her as a practical recognition of the fact that the United States immigration commissioners had decided that she would be regarded as an American citizen. She said that Ambassador Choate provided a gentleman escort for her when she left Turin.

To the interviewer Mrs. Maybrick protested her innocence as firmly as she had done at the beginning and said she experienced nothing but kindness from the prison officials.

### CLOUDEURST IN COLORADO.

Heavy Damage Caused at Leadville and Vicinity.

Leadville, Colo., Aug. 13.—A cloudburst in the hills east of Leadville Friday caused several thousand dollars damage here. A wall of water four feet high came down Stray Horse and California gulches, sweeping everything before it. The Denver and Rio Grande Colorado Midland tracks in California gulch were washed out for some distance. Stores in the city were flooded and goods in cellars ruined. Much of the eastern part of the city was undermined, and a portion of the ground caved in. A crack almost a foot wide extends for several blocks in the thickly settled part of the city and several houses were damaged slightly. There is danger that this portion of the city will settle so seriously as to render it permanently unfit for residence purposes.

### TRAIN STRIKES A BUGGY.

Two Persons Killed and Two Others Badly Hurt.

Glenwood, Ia., Aug. 13.—While Daniel Lewis, superintendent of the Mills county poor farm, his son, and George and Oliver Roth, father and son, were driving across the Burlington tracks Friday their buggy was struck by the westbound fast mail. Both the Roths were killed and Lewis and his son were both seriously injured.

### SMALLPOX PATIENTS ISOLATED.

Authorities of Zion City Take All Necessary Precautions.

Chicago, Aug. 13.—Officials of the city health department Friday visited Zion City to investigate the condition of the smallpox epidemic in that place. They found that there are sixteen cases of the disease and that the authorities of Zion City had properly isolated them, and that all necessary precautions are being observed.

## SITUATION STILL IRREGULAR.

But the General Tone of Business Is One of Confidence.

New York, Aug. 13.—Bradstreet's weekly review of trade says fall trade expands but slowly, conservatism, based apparently upon crop disappointments or uncertainties and labor troubles, ruling most lines of distribution. Government figures of crop conditions just issued are, in the main, favorable, though vitiated by early date of replies. Predicted reductions in the winter wheat crop out-turn are confirmed, but are counter-balanced by improvement in other crops pointing to a general yield of food products well above the average. Earlier prospects of a large cotton yield are not materially changed, but predicted lower prices render buyers of cotton goods cautious. They are, therefore, buying only for immediate necessities. Jobbing trade the country over, while perhaps up to expectations, is not equal to the last year's. Bank clearings continue to run behind, but railway earnings promise rather better than earlier expected. Industrial conditions are not altogether promising in view of the continuance of the meat strike, which also is interfering with the leather trades, the Fall River difficulty and the calling out of large numbers of building hands at the metropolitan. All in all, the situation may be characterized as still irregular, though the general tone of business and the outlook is one of confidence.

### Track Slow for Dan Patch.

Indianapolis, Aug. 13.—The feature of the harness races here Friday was an exhibition mile by Dan Patch against time. The track was slow, however, and the best the great pacer could do was 2:02 3/4.

## VIOLENCE IN CHICAGO

SEVERAL MEN INJURED IN THE RIOTS ATTENDING STOCK-YARDS STRIKE

**CALL ON MAYOR HARRISON**

RETAIL MEAT AND GROCERY MEN WILL ASK HIM TO TRY TO SETTLE TROUBLE.

Chicago, Aug. 13.—A riot in crowded Fifth avenue within a square of the city hall and recalling the teamsters' strike two years ago, when missiles were hurled from the windows of office building, capped the climax of disorder in the stockyards' strike Friday. During the day half a dozen men were hurt in various encounters and shots were fired during an attack on a train-load of "strike-breakers." All told, Friday's violence was more widespread than in any previous twelve hours of the strike, although no mob of great size took part in any of the assaults.

Even President Golden of the teamsters' union was attacked while trying to rescue Max Falk, a union teamster, who was driving a wagon loaded with meat. Four hundred persons had pursued Falk, not knowing he was a unionist, and were attacking him when President Golden appeared. When Falk produced a union button Golden mounted the wagon, took the reins and urged back the mob. Stones and sticks were showered at Golden and Falk before Golden, who suffered many injuries, was recognized.

Mayor Carter H. Harrison will today be asked to do what he can toward settling the stockyards strike. With all prospects of peace, or even peace conferences gone, the retail meat dealers and grocers last night decided to ask Mayor Harrison to take position in the present conflict similar to the position taken by him in the street car strike last fall. The street railway strike was settled through his efforts. Representatives of the strikers expressed themselves as being satisfied with the plan to ask Mayor Harrison's assistance in the controversy. Previous to the decision to request Mayor Harrison to intercede for peace, Cornelius Shea, president of the International Brotherhood of Teamsters, declared that there would be no more sympathetic strikes of the members of his union. He declared that all the packinghouse teamsters now on strike would stand pat.

**MRS. MAYBRICK TALKS.**

Grateful to Those Who Worked for Her Release.

London, Aug. 13.—The Daily Chronicle publishes a three column interview with Mrs. Florence Maybrick, mostly concerned with her experiences during her life in prisons. The interviewer describes Mrs. Maybrick as clear-witted, outspoken, mildly robust and in no way shattered, either physically or mentally, though her face is drawn as with grief and suffering, and says that she answered the questions put to her frankly and without embarrassment or nervousness.

Describing the arrangements for her release, Mr. Maybrick said she could never hope to repay the debt of gratitude she owed Ambassador Choate, Henry White, secretary of the American embassy, and other kind friends, and she wished it known how good the officials of the American embassy had been to her as a practical recognition of the fact that the United States immigration commissioners had decided that she would be regarded as an American citizen. She said that Ambassador Choate provided a gentleman escort for her when she left Turin.

To the interviewer Mrs. Maybrick protested her innocence as firmly as she had done at the beginning and said she experienced nothing but kindness from the prison officials.

**CLOUDBURST IN COLORADO.**

Heavy Damage Caused at Leadville and Vicinity.

Leadville, Colo., Aug. 13.—A cloudburst in the hills east of Leadville Friday caused several thousand dollars damage here. A wall of water four feet high came down Stray Horse and California gulches, sweeping everything before it. The Denver and Rio Grande Colorado Midland tracks in California gulch were washed out for some distance. Stores in the city were flooded and goods in cellars ruined. Much of the eastern part of the city was undermined, and a portion of the ground caved in. A crack almost a foot wide extends for several blocks in the thickly settled part of the city and several houses were damaged slightly. There is danger that this portion of the city will settle so seriously as to render it permanently unfit for residence purposes.

**TRAIN STRIKES A BUGGY.**

Two Persons Killed and Two Others Badly Hurt.

Glenwood, Ia., Aug. 13.—While Daniel Lewis, superintendent of the Mills county poor farm, his son, and George and Oliver Roth, father and son, were driving across the Burlington tracks Friday their buggy was struck by the westbound fast mail. Both the Roths were killed and Lewis and his son were both seriously injured.

**SMALLPOX PATIENTS ISOLATED.**

Authorities of Zion City Take All Necessary Precautions.

Chicago, Aug. 13.—Officials of the city health department Friday visited Zion City to investigate the condition of the smallpox epidemic in that place. They found that there are sixteen cases of the disease and that the authorities of Zion City had properly isolated them, and that all necessary precautions are being observed.

**SITUATION STILL IRREGULAR.**

But the General Tone of Business is One of Confidence.

New York, Aug. 13.—Bradstreet's weekly review of trade says fall trade expands but slowly, conservatism, based upon uncertainty of crop, appointments of uncertainties and labor troubles, ruling most lines of distribution. Government figures of crop conditions just issued are, in the main, favorable, though vitiated by early date of replies. Predicted reductions in the winter wheat crop out-turn are confirmed, but are counter-balanced by improvement in other crops pointing to a general yield of food products well above the average. Earlier prospects of a large cotton yield are not materially changed, but predicted lower prices render buyers of cotton goods cautious. They are, therefore, buying only for immediate necessities. Jobbing trade the country over, while perhaps up to expectations, is not equal to the last year's. Bank clearings continue to run behind, but railway earnings promise rather better than earlier expected. Industrial conditions are not altogether promising in view of the continuance of the meat strike, which also is interfering with the leather trades, the Fall River difficulty and the calling out of large numbers of building hands at the metropolis. All in all, the situation may be characterized as still irregular, though the general tone of business and the outlook is one of confidence.

**Track Slow for Dan Patch.**

Indianapolis, Aug. 13.—The feature of the harness races here Friday was an exhibition mile by Dan Patch against time. The track was slow, however, and the best the great pacer could do was 2:02 3/4.
